

## ENVIRONMENTAL POLICY

BHR Group recognises that its business activities can interact with the environment in a variety of ways. These activities have an impact in the areas of:

- Raw material, energy, and water use.
- Generation of waste materials.
- Advising clients on energy saving, reducing raw material use and waste minimisation.

The company recognises that it has a responsibility to help protect the environment wherever it has an opportunity to do so, be a responsible neighbour and to provide a healthy, safe and secure environment for its employees to work in.

As such, the company is committed to:

- Continual improvement of the direct and indirect environmental impacts of its business activities
- Improving the environmental benefits provided through the continual development of its research and development activities, particularly in the areas of energy efficiency, waste reduction, environmental engineering, and renewable energy.
- Preventing pollution
- Complying with all relevant legal, customer, and other third-party requirements
- Adopting best practices applicable to its activities wherever it is practical.
- The company will achieve these commitments through the following means:
  - The implementation and maintenance of an Environmental Management System that is independently certified as compliant with ISO 14001:2015.
  - Employing processes that identify the aspects of the company's business that have a direct or indirect environmental impact and quantifying the significance of these aspects.
  - Setting objectives for reducing its environmental impact and maintaining an environmental performance improvement programme to enable them to be achieved.
  - Ensuring that its employees, suppliers, and customers are aware of any actions required by them to support the company's commitments and environmental objectives.
  - Training its employees in good environmental protection practices and encouraging employee involvement in environmental improvement initiatives.
  - Where possible, advising clients on options for substituting materials and processes for ones with lower environmental impact.
  - Continually monitoring the environmental impact of its business activities

The implementation of this Environmental Policy is fundamental to the success of the company's business and must be supported by all employees as an integral part of their daily work. This policy is publicly available on the company website.
